

Do you work in the following classifications?

Provincial Review Documents

The employer is required to give members the documents to do their provincial review. These deadlines for completion can be found here: [Provider Group Joint Job Evaluation | Provider Group Joint Job Evaluation \(working-for-health.ca\)](#) If you are in a classification doing a provincial review and have not received your documents, please contact your regional reps immediately. We want to increase our participation numbers and remove barriers wherever we can.
